

ONSITE INJURY PREVENTION

DRIVING INJURY PREVENTION ONE EMPLOYEE AT A TIME

For nearly every stakeholder in employee health - from employees at risk to their employers, claims administrators to risk managers - prevention, optimum health, and cost containment are the primary drivers. Our client portfolio in the Injury Prevention Industry is both broad and deep, consistently demonstrating the ability of our Solutions to transform the economics of maintaining and restoring worker health, driving results, thereby containing costs and optimizing productivity.

Serving clients in 50 states and 63 countries around the world

USE CASES

SYMPTOMATIC EMPLOYEES AT RISK

Employees in jeopardy of suffering expensive musculoskeletal injuries, often experience minor symptoms, which if left unchecked, can progress into expensive lost-time claims and reduced productivity.

BEHAVIORS AND ERGONOMICS

Employees with unsafe habits are at greater risk of injury. Also, employees with unsafe working conditions are at increased risk of injury.

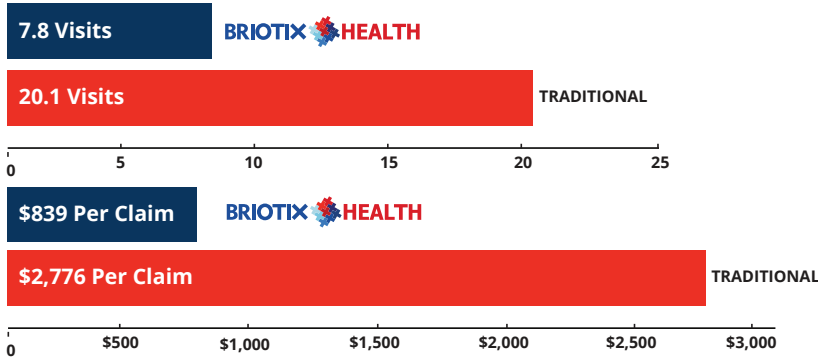

DATA DRIVES RESULTS & ROI

Service results must be constantly monitored to ensure optimum return on investment. Briotix Health delivers real-time data with Briotix.Works to deliver on your investment.
